LinkedIn - Plamena Mincheva

Highlights

- Experienced in designing user interfaces for web and mobile, from wireframes and prototypes to high-fidelity mockups in Figma
- Skilled in planning and running user research (interviews, user testing) and turning insights into product features
- Skilled in embedding gamification mechanics into digital products to support user engagement
- Proven ability to turn client briefs into creative, user-focused solutions, adding own ideas and initiative
- Effectively able to communicate with clients and cross-functional teams
- Proven ability to bridge design and development, using front-end knowledge (HTML, CSS, React, Flutter) to deliver designs that are feasible to build

Employment History

Intern UX/UI Designer and Mobile Developer — SEP 2025 - JAN 2026

SPINNOV — Eindhoven

- Collaborated daily within a cross-functional team of engineers, industrial designers, and project managers to align design with technical feasibility
- Conducted weekly design reviews and presented interactive prototypes to key stakeholders for feedback and sign-off
- Maintained professionalism and adaptability through fast-moving project pivots, translating early-stage ideas into functional designs that were practical for developers to build
- Bridged the gap between design and engineering by directly assisting developers in coding mobile UI elements
- Designed and maintained a component library to keep the app's UI consistent

Cashier (part time) — MAY 2025 - SEP 2025
LIDL — Eindhoven

- Assisted customers with finding and locating products they were looking for
- Worked under pressure during peak hours
- Navigated quickly through the system, rules and way of working in the store
- Answered customer concerns in a professional and helpful manner
- Balanced part-time work with full-time university studies
