Employment History

Intern UX/ UI Designer and Mobile Developer — **SEP 2025 - JAN 2026**
SPINNOV — Eindhoven

- Collaborated daily within a cross-functional team of engineers, industrial designers, and project managers to align design with technical feasibility.
- Conducted weekly design reviews and presented interactive prototypes to key stakeholders for feedback and sign-off.
- Maintained professionalism and adaptability through fast-moving project pivots, translating early-stage ideas into functional designs that were practical for developers to build.
- Bridged the gap between design and engineering by directly assisting developers in coding mobile UI elements.
- Designed and maintained component library for the application

Cashier (part time) MAY 2025 - SEP v2025
LIDL Eindhoven

- Assisted customers with finding and locating products they were looking for
- Maintained to work under pressure during peak hours
- Navigated quickly through the system, rules and way of working in the store
- Answered customer concerns in a professional and helpful manner
- Managed and organised my work around university and work
